1. Introduction

Summarize the research motivation and objectives. This thesis demonstrates custom spacing settings with double line spacing, full paragraph spacing, and compact item spacing.

Rest of this page intentionally left blank.

2. Methodology

Document experimental design, data acquisition, and analysis steps.

Here is a list to demonstrate the compact item spacing:

- First item with compact spacing
- Second item showing the effect
- Third item in the list

Rest of this page intentionally left blank.

3. Results

Present findings supported by figures and tables. Notice the double line spacing throughout the document for better readability.

Rest of this page intentionally left blank.

4. Conclusion

Highlight contributions, limitations, and future work. The custom spacing makes this document easier to read and review.

Rest of this page intentionally left blank.

A. Additional Material

Provide supporting derivations or extended data.
